PROFILE

Operations and project management professional who keeps startups and growing teams organized and moving. I lead intern operations at RWA Inc., led partnership outreach across 450+ organizations at AKD, and support a startup CEO as executive assistant. I also build the systems behind the work, including trackers, dashboards, and automations in Google Apps Script, Make.com, Airtable, and Notion, saving teams 3–4 hours of manual work a day. Open to remote operations, project management, and executive support roles, on contract or full-time.

KEY RESULTS

- **Led** a partnership pipeline of 450+ organizations at AKD, including around 100 prospective partners.
- **10+ partnerships** secured in a single quarter.
- **Named Project Management Intern of the Cohort** at AKD and awarded a Certificate of Distinction (EPS score 99/100).
- **Built a waitlist system** using Airtable and Fillout that sourced the first 100 users of InfoPouch Africa.
- **3–4 hours a day** of manual work saved through the trackers and automations I build.
- **Promoted to Operations Team Lead** at RWA Inc. within months of joining as an intern.

EXPERIENCE

Operations Team Lead | RWA Inc. · Remote — Jun 2026 – Present

Joined as an intern in June 2026 and was promoted to team lead.

- Led intern operations across departments, covering onboarding, task assignment, and department tracking.
- Built the intern task assignment tracker. Three Google Forms (new cohort, returning interns, team-lead tasks) feed one master sheet, and each team lead sees only their department's active interns.
- Built "Vera," a guided five-step onboarding web app with a voice assistant (Google Apps Script, Google Sheets, Netlify). It is now in testing for rollout next quarter.

Executive Assistant to the CEO | InfoPouch Africa · Remote — Aug 2026 – Present

- Support the founder and CEO of a pre-revenue, pan-African data infrastructure startup.
- Built and run the waitlist system on Airtable and Fillout, sourcing the first 100 waitlist users.
- Researched grants for the fundraising pipeline and produced branded company assets, such as letterheads and email templates.

Project Management Associate | AKD (Apex Knowledge Desk) · Remote Aug 2026 – Nov 2026

Joined as a project management intern and was promoted to associate, supporting the Partnership and Ambassador teams.

- Led partnership outreach across 450+ organizations, building a pipeline of around 100 prospective partners and securing 10+ partnerships in one quarter.
- Built the partnership tracker and a live Google Apps Script dashboard so the team can see where every conversation stands.
- Coordinated partnerships, internship pipelines, onboarding, and reporting across teams.
- Named Project Management Intern of the Cohort (Cohort 26 Gamma) for coordination, execution, and leadership, and awarded a Certificate of Distinction with an EPS score of 99/100.

Operations Manager (Volunteer) | Stableflow · Remote Sep 2026 – Present

- Built the onboarding access system and wrote the Q3 operations report. Own the HR and operations SOP for the internship program.
- Assigned by my supervisor to turn the team's leave policy into a working system. Built live leave balances, a request form that counts working days, cover-person confirmation, a team calendar and approvals, and fixed bugs until it matched the policy.
- Building a task-intake automation with Google Forms, Sheets, and Apps Script.

Operations Intern | Hilvarr Digitals · Remote Apr 2026 – Jun 2026

- Built a Google Sheets-to-Notion lead pipeline with Apps Script, automating lead intake for the agency.
- Built an automated report-reminder system (Make.com, Apps Script, and Twilio) that keeps clients reporting on schedule.
- Reorganized the agency's Notion boards and supported expense tracking, invoicing, and budgeting.

Virtual Assistant Intern | HNG Tech · Remote Apr 2026 – May 2026

- Built and maintained lead trackers in Airtable and managed research documentation.
- Built a task manager with categories, priorities, due dates, and search, and planned a full travel itinerary with logistics and cost breakdowns.
- Built Budget Panic, a browser game, as an internship task. I extended it with my own updates and published it on Start.ng.

Product Design Intern (UI/UX) | DSHUB · Remote Mar 2026 – May 2026

- Designed UX screens and interface flows in Figma and presented them in design reviews.
